

SureColor G9000

Epson SureColor G9000 is a true high-production Direct-To-Film printer providing high productivity, reliability and useability.

SureColor G9000 is Epson's first high-production DTFilm printer, built for businesses needing more capacity. Default 1200×600 dpi delivers fast output without quality loss. 1,626mm media width supports more materials, while 1.6L ink packs cut downtime. Epson printhead, inks and software add peace of mind. Includes Fiery Digital Factory and Epson EdgePrint RIPs.

High productivity without compromise

Built for High-volume DTFilm printing, the SureColor G9000 uses a larger printhead with symmetrical nozzle arrangement over two rows, enabling the 1200x600dpi default mode to produce detailed transfers at pace. Choose alternative print modes when you need extra speed or higher quality, up to 1200x1200 dpi so you can match output to each order and keep schedules on track.

Reliable operation with less intervention

Epson reliability comes from a purpose-built system. Automatic cleaning cycles, Nozzle Verification Technology and a fabric wiper help maintain a high print quality and reduce manual checks. That means fewer interruptions during production and more consistent DTFilm results across long print runs.

Designed for high uptime, even in peak season

When deadlines stack up, downtime is costly. The SC-G9000 features user replaceable printheads and automated maintenance routines. Reduce reliance on service call outs and keep production moving.

Intuitive design enables continuous production

A 4.3-inch touchscreen displays the key information clearly, enabling the printer status, ink levels and next automatic maintenance cycle to be monitored at a glance. Internal lighting makes it easy to check the print quality during production. Large 1.6L ink pouches support longer unattended printing, helping you run DTFilm jobs smoothly on a high production schedule.

Wide range of media compatibility

Direct-To-Film transfers need stable ink laydown. A built-in front heater improves drying and enables printing onto a wider range of media. Compatible with media from 300mm up to 1,624mm wide, SC-G9000 is compatible with all common media widths available in the market.

An optimised Epson DTFilm ecosystem

The SureColor G9000 is part of a complete Epson ecosystem of printhead, pigment inks and software, designed to work together. Bundled Fiery Digital Factory adds colour management and workflow automation, giving a consistent, efficient DTFilm printing process at scale.

KEY FEATURES

- **High resolution default mode for high-volume DTFilm production**
Default 1200x600 dpi print mode delivers sharp Direct-To-Film transfers quickly, with additional modes for White or CMYK only, to suit a wide range of applications.
- **Automatic cleaning and Nozzle Verification Technology (NVT)**
Auto-cleaning fabric wiper, capping station & suction cap reduce daily maintenance; Nozzle Verification Technology monitors nozzles, compensating to maintain quality.
- **User-replaceable printheads for maximum uptime**
A user self-replaceable printhead reduces service call outs and maintains high production, maximising printer uptime, even through busy periods.
- **Intuitive touchscreen and large ink pouches**
4.3-inch touchscreen with visual guides and internal lighting makes operation easy. 1.6L high-capacity pouches reduce replacement and disruptions on long runs.
- **Front heater for stable high speed printing on varied media**
Built-in front heater improves drying and enables printing onto a wider range of media.

PRODUCT SPECIFICATIONS

PRINT	
Colours	Black [Pigment], Cyan [Pigment], Yellow [Pigment], Magenta [Pigment], White [Pigment], Cleaning liquid [Pigment], Maintenance Liquid [Pigment]
Colours Capacity	Black [1600ml], Cyan [1600ml], Yellow [1600ml], Magenta [1600ml], White [1600ml], Cleaning liquid [1600ml], Maintenance Liquid [1600ml]
Nozzle Configuration	1.600 Nozzles Black, 1.600 Nozzles per Color, 1.600 Nozzles white x2
Number of colours	4 colour
Minimum Droplet Size	12,6 pl, With Variable-Sized Droplet Technology
Printing Resolution	1.200 x 1.200 DPI

PAPER / MEDIA HANDLING	
Print Margins Sheet Media	Mode 1: 8 mm (right), 8 mm (left)
Paper Formats	17" (43.2 cm) Roll, 24" (61.0 cm) Roll, 36" (91.4 cm) Roll, 44" (111.8 cm) Roll, 64" (162.6 cm) Roll
Media Path	Friction
Thickness	Roll0,5 mm
Roll Capacity - Diameter	Roll 1:250 mm
Roll Capacity - Weight	Roll 1:45 g

GENERAL	
Power consumption	440 Watt, 70 Watt (economy), 0,6 Watt (standby)
Supply Voltage	AC 200 V - 240 V
Product dimensions	2.949 x 844 x 1.605 mm (Width x Depth x Height)
Product weight	335 kg
Noise Level	Operation (Roll):75 dB (A) Standby:56 dB (A)

OTHER FEATURES	
Maintenance system	White ink circulation system, Automatic wet fabric wiper system
Features	Touchscreen, Nozzle Verification Technology, Auto Clean Cycles, On Screen Help
Media Handling	Roll Paper
Compatible Operating Systems	Mac OS X 10.9.5 or later, Windows 10 x64, Windows 11 or later

TECHNOLOGY	
All-in-One Functions	Print

LCD AND MEMORY CARDS	
Panel	Type: Color, Touchscreen

OTHER	
Warranty	12 months On-site service

LOGISTICS INFORMATION

SKU	C11CM28301A0
EAN code	8715946747552
Country of Origin	China

SureColor G9000

WHAT'S IN THE BOX

- Bulk Ink Solution
- Epson Edge Print Pro
- Fiery Digital Factory Epson Production Edition
- Installation/safety manual
- Main unit
- Maintenance Kit
- Power cable
- Setup guide
- User manual
- Warranty document
- Inks
- USB cable
- Waste ink bottle

SUPPLIES

- UltraChrome DF Black T57U100 (1.6L) (C13T57U100)
- UltraChrome DF Cyan T57U200 (1.6L) (C13T57U200)
- UltraChrome DF Magenta T57U300 (1.6L) (C13T57U300)
- UltraChrome DF Yellow T57U400 (1.6L) (C13T57U400)
- UltraChrome DF White T57UA00 (1.6L) (C13T57UA00)
- UltraChrome DF Maintenance Liquid T57UB00 (1.6L) (C13T57UB00)
- UltraChrome DF Cleaning Liquid T57Y100 (1.6L) (C13T57Y100)
- Waste Ink Bottle 4L (C13S210071)
- Maintenance Kit T736200 (C13T736200)
